I am a self-taught developer who has spent the last 5 years working in start ups in lead developer and director roles. I am passionate about tech and education. I love to raise up others with me on my professional journey.

Professional Goal

My goal is to become a business leader in the tech industry, specializing in mobile development and education.

I would like to grow my technical skills and ability to effectively lead and communicate in a fast pace technical space.

Employment

Software Engineer (2019 - Present) @ Facebook - Seattle, WA

Director of Curriculum (2016 - Present) @ Interapt Skills - Louisville, KY

Interapt Skills trains up veterans and underserved populations into technical jobs. Seen on Comedy Central and the New York Times.

- Joined as employee #1
- Grew from no revenue to \$2M+
- Built an innovative non-traditional education method
- Raised up over 100 people from poverty to skilled tech jobs

Freelance Mobile Engineer (2015 - Present) @ IJVP - Louisville, KY

- Android Developer, Inscope Medical (inscopemedical.com)
- iOS Developer, MailHaven (mailhaven.co)
- iOS Developer, Stacks Mobile (stacksmobile.io)

Skills

- Specialized in Android (Java) and iOS (Swift) developer
- Experience with Objective-C, Python, Kotlin, MERN, Ruby, SQL
- Technical curriculum development, design, and instruction
- Leadership and management in technical environments

Volunteering

Code Louisville, Volunteer Mentor ('15 - Present)

Code Louisville offers a free 12-week software development mentorship to adults in the Louisville area.

Projects

SnapHunt (April '16 - August '17)

SnapHunt is a discovery platform to help Snapchat users find new content and creators.

- Grew user base from 0 to 10,000 in 4 weeks
- Managed the whole business from top to bottom
- Hired and led a team of 3 developers

Yeti Agenda (October '13 - June '15)

I built a platform for students, teachers, and parents to access classroom information without difficulty. Self-taught iOS and web development. Gained experience conducting market research, customer discovery, customer research, sales, marketing, and team building.
